## EDUCATION

---

### Universidad Autónoma De Santo Domingo

Graduating in November 2023

*Bachelor of Chemical Engineering*

### Alura-Latam

October 2022 - January 2023

*Certificate in Fullstack Web Application Development*

## Professional Experience

---

### Escuela RedPill

October 2022 –  
Current

I had the privilege of working with Escuelaredpill, my first client who needed a personalized linktree, informative marketing landing pages, and a book list page. To accomplish this, I utilized a powerful tech stack consisting of Next.js and React for frontend development, Tailwind CSS for streamlined styling, and Nginx as a web server to optimize performance. Furthermore, I leveraged cloud services to ensure scalability, reliability, and efficient deployment of the application. To gain valuable insights into user behavior and website performance, I integrated Google Analytics for comprehensive analytics tracking.

## KNOWLEDGE

---

- Proficient in Typescript, Javascript and HTML/CSS
- Familiarity with web development frameworks such as Nextjs/React and Node.js
- Experience with version control tools such as Git and GitHub
- Familiarity with project management tools such as Jira and Notion
- Experience with team communication tools such as Slack and Discord
- Strong problem-solving and debugging skills
- Quick learner and highly adaptable

## SKILLS

---

### PROGRAMMING LANGUAGES

1 years: Python, JavaScript, Typescript, HTML, CSS/SCSS, SQL

### TECHNOLOGIES

Nextjs, node.js, Express, React, MySQL, MongoDB, Git, Github, Google Cloud Platform(GCP), Ubuntu, TailwindCSS, Nginx, Jenkins, Docker.

### ONLINE COURSES

Alura Latam: Formation in Front End Development

Alura Latam: Main Training in Programming G3 - ONE

Alura Latam: Java Object Oriented G3 - ONE

Platzi: Professional Python

Platzi: Basic JavaScript

Platzi: Introduction into React.js

Microsoft: MOC20480 Programming in HTML5 with JavaScript and CSS3

Microsoft 20486B: Developing ASP.NET MVC 4 Web Applications
